SHARE THE WARMTH

SELCO is asking you to “Share the Warmth” with your neighbors who are having difficulty affording their electric bills this winter.

You can help by visiting
SELCO.ShrewsburyMA.gov/STW

100% of donations go directly to Shrewsbury residents in need.

DO YOU NEED ASSISTANCE?

Applications must be in before the **March 1, 2021** deadline. For more info, contact an agency below.

MORE DEVICES NEED MORE SPEED

Did your family add more devices this holiday season?

SELCO's Silver, Gold, and Platinum Internet may be just what your family needs! With Silver, your family gets the speed to work from home, complete school work, and watch streaming content on a few devices at one time.

Gold will get your home twice the download speed of Silver. With 200Mbps down, you will be able to stream movies, music, email, game, work from home, finish up schoolwork, video chat and more.

Still want more? We've got it! Platinum will get you triple the upload and download speed of Silver. Your family will have the power to do more, faster. Hold meetings, online game, watch movies on multiple screens without annoying buffering.

Call **508-841-8500** to upgrade today.

Happy New Year

Efficiency upgrades will make you the TOAST of the town. You'll feel BUBBLY saving energy and money!

SELCO AND NESN SCHOLARSHIP

Shrewsbury High School Seniors are encouraged to apply for one of three \$1,000 scholarships being made available by SELCO and New England Sports Network (NESN).

These scholarships are awarded based on community involvement, good citizenship, volunteer work inside and outside of school, a recommendation from an advisor or guidance counselor, financial need, and a statement of personal goals and aspirations.

The SELCO/NESN Scholarship application form is available online at SELCO.ShrewsburyMA.GOV/selcoscholarship. All applications are due by March 12, 2021.

SAVE MONEY THIS WINTER

Check out cool ways to save on your electric bill this winter. Find more energy saving tips at energy.gov

- **Install and set a programmable thermostat.** You could save an estimated 10 percent per year on heating and cooling costs by using a programmable or wifi thermostat.
- **Use sunlight to your advantage.** During winter months, you can take advantage of sunlight by opening your curtains during the day to allow the sun to naturally heat your home.
- **Maintain your heating system.** Schedule service for your heating system and replace your filter as recommended by the manufacturer, usually every 2-3 months.
- **Reduce heat loss from fireplace.** Keep your fireplace damper closed unless a fire is burning. Keeping it open is like opening a window; it allows warm air to go right up the chimney.
